ACADEMIC SNAPSHOT

Thiagarajar School of Management, Madurai Master of Business Administration Madurai Kamaraj University	2024 -2026 CGPA 7.31
Nallamuthu Gounder Mahalingam College, Bachelor of Business Administration Bharathiar University	2020 - 2023 CGPA 7.0
PKD Matriculation Higher Secondary School HSC State Board	2019 - 2020 85%
PKD Matriculation Higher Secondary School SSC State Board	2017 - 2018 85%

INDUSTRIAL EXPOSURE

Pipraisers Capital Market Analyst Intern - Conducted equity and debt market research to support investment decisions. - Analysed financial statements and created trend reports for client portfolios using technical analysis. - Assisted in preparing market outlook presentations for senior analysts.	Jul 2025 – Aug 2025
RK Global Shares & Securities Equity Market Analyst Intern - Performed daily stock performance analysis and generated investment recommendations. - Assisted in client advisory sessions by preparing valuation and risk assessment models. - Gained exposure to live trading platforms and market trend forecasting.	May 2025 – Jul 2025

ACADEMIC PROJECTS

“MODELING AND FORECASTING SILVER PRICE TRENDS USING TIME SERIES ECONOMETRIC AND VOLATILITY MODELS” - Developed a predictive model for silver price forecasting using Python-based AI and time series techniques (AR,ARIMA, GARCH & EGARCH Models). - Collected and pre-processed historical silver price datasets, performed data visualization, and applied feature engineering. - Achieved improved accuracy in short-term price predictions by comparing traditional statistical models with deep learning approaches.	2025
“A STUDY ON STUDENTS PERCEPTION TOWARDS ENTREPRENEURSHIP AS A CAREER WITH SPECIAL REFERENCE TO NGM COLLEGE, POLLACHI” - Conducted a survey-based research study to analyse students’ interest, motivation, and barriers in pursuing entrepreneurship. - Designed and distributed structured questionnaires, collecting 200+ responses for statistical analysis. - Applied tools such as Excel and SPSS for data analysis, identifying key factors influencing entrepreneurial intent.	2023

Integrating Green HRM and Psychological Capital for Sustainable Organizational Performance - Designed a mediation-based research model linking Green HRM, Psychological Capital, and sustainability - Conducted reliability analysis, CFA, correlation, mediation (PROCESS), and SEM (JMP) - Worked with a sample of 250 respondents using SPSS and JMP	Present - 2026
Yield Curve Modelling and Its Impact on Interest Rate Derivatives Pricing (India) - Conducted an empirical study comparing Bootstrapping and Nelson–Siegel/Svensson yield curve models using Indian G-Sec, MIBOR, and IRS market data. - Analysed the impact of curve construction on IRS and FRA pricing and DV01/PV01 sensitivity using Python (Pandas, NumPy, SciPy).	Present - 2026
Analysis of Flight Delays: Weather, Congestion, and Operational Factors Conducted a multi-factor statistical analysis of flight delays across major Indian metro cities - Evaluated the impact of weather severity, congestion index, departure slots, routes, and seasonality - Identified critical delay drivers using correlation analysis and descriptive statistics (delay threshold at 51 minutes) - Developed managerial insights on slot optimization, route-based buffering, and seasonal capacity planning Tools: Python, Power BI, Excel, Statistical Analysis	2025
WTC 2025 Squad Analytics Project - Analyzed Australia vs South Africa WTC 2025 squads using statistical analysis and ML techniques - Built models to evaluate player roles, team balance, and outcome likelihood - Predicted Australia as favorites; South Africa emerged champions, demonstrating model vs reality gap	2025
Predicting the IPL 2025 Champion Using Machine Learning — <i>Self-Initiated Analytics Project</i> - Built a Random Forest classification model using multi-year IPL playoff data (qualifiers, eliminators, finals) - Engineered 11 performance features including net run rate, run rate, head-to-head record, player form, and venue advantage - Achieved 72.7% accuracy using 5-fold cross-validation with ROC-AUC score of 0.78 - Generated probabilistic predictions for IPL 2025 final outcomes, highlighting model vs real-world uncertainty Tools: Python, Pandas, Scikit-learn, Matplotlib, Seaborn	2025

CAMPUS AND COMMUNITY LEADERSHIP

Thiagarajar School of Management

Core Committee Member – Admission Cell

(Sep 2024 – Present)

(Student Coordinator)

- Led **tele-counselling** drives and open house campaigns to boost **PGDM** and **MBA admissions**.
- Managed **applicant tracking**, **enquiry handling**, and admission marketing initiatives.

Core Committee Member - Artha Club (Finance)

(Sept 2024 – Present)

(Student Coordinator)

- Organized **Fin-Rizz** and **The Analyst Competition**, attracting finance aspirants across programs.
- Conducted financial literacy sessions, portfolio simulation games, and industry talks with finance experts.

Core Committee Member – Navras Club (Entertainment Club)

(Sep 2024 – Present)

(Student Coordinator)

- Planned and executed cultural and entertainment events, including movie screenings, drama performances, and mime acts.

Nallamuthu Gounder Mahalingam College

- **Alumni Cell Member** – Facilitated alumni networking sessions and career mentoring events to strengthen industry-academia connections.
- **Entrepreneurship Cell Member** – Organized startup ideation workshops and business plan competitions to promote entrepreneurial initiatives.

CERTIFICATIONS AND ACHIEVEMENTS

- **National and State-level Badminton Player** **2016 – 2022**
Competed at national and state-level badminton tournaments, showcasing dedication, teamwork, and discipline, which translate into my professional approach and performance.
- **Proposed and Pitched Startup Idea** related to “**IoT at Workplace for better efficiency**” with TSM E-CELL
- **Google – Foundations: Data, Data Everywhere**
Gained foundational knowledge in data analysis, programming languages, and tools like Tableau and Excel, essential for data-driven decision-making.
- **The Hong Kong University of Science and Technology – Python and Statistics for Financial Analysis**
Applied Python and statistics to financial analysis, gaining practical experience in data analysis and investment strategies.
- **University of Michigan – Stocks and Bonds**
Studied the essentials of stock and bond markets, strengthening my understanding of investment vehicles and their impacts on financial markets.
- **TSM Talks Certification – Spoke on "AI vs. Human: Could Algorithms Be the Key to Fairer Employee Evaluations?"**, Delivered a talk on the evolving role of AI in HR, discussing its potential to ensure fairer employee evaluations.

EXTRA CURRICULAR ACTIVITIES

1. Participated in various **Inter College Quiz Competitions**.
2. Participating in **Inter College online Workshops**.
3. Participation in Paper Presentations Competitions

SKILLS AND INTERESTS

Soft Skills: Communication Skills, Leadership Skills, Logical and Cognitive Skills, Active listening, Networking.

Technical Skills: Excel, Data analysis, JMP, Minitab, Tableau, Power BI, MS Azure Technical analysis in share market, Python for Analysis.

Interests: Sketching & Poster Designing, Participating in Workshops, Video Capturing and Editing , Reviewing Cinema, Learning Advanced Technology.
